Moynat Moynat recently launched a collection that showcases its ancient leather marquetry technique. Creative Director Ramesh Nair's latest work includes a host of small leather goods—notebook covers, passport holders, pouches, key rings, and charms—each embellished with playful icons of automobiles, trains, and animals. The items are constructed with Taurillon Gex leather in colors customized for the house. Moynat's skilled artisans practice extreme precision with every manual cut and assemble each piece together to create the designed motif. Every mosaic is a unique work of art with seams that are undetectable to both the eye and to the touch. Jigsaw Puzzle Template Jigsaw Puzzle Template Fun Facts for Kids The first commercialized jigsaw puzzle was created around 1760 by London mapmaker John Spilsbury. Back then, puzzles were cut out of wood using a jigsaw. The largest commercially available jigsaw puzzle features artwork by artist Keith Haring, and has 32,256 pieces. The largest-sized jigsaw puzzle was 58,435.1 ft². Each individual piece was about 20 inches x 20 inches in dimension. This freebie includes puzzle piece templates for a two-part puzzle and a four-part puzzle- perfect for matching activities! I have included an image of the entire puzzle, as well as the individual parts for each. **I have updated the file to also include the 8 transparent versions of all the pieces. I think the transparent versions of the entire puzzles will be especially helpful if you want to layer it over an image and then cut it apart as for the kids to match up** Enjoy and check out my other freebies and products! These images have high resolution, so you can enlarge them to an entire page and they will still be crisp. All images are in png formats so they can easily be layered in your projects and lesson materials. Creative Clips Digital Clipart is created by Krista Wallden.
